

intuVision User Story:

Car Dealership Monitoring with intuVision & Viewpoint

"intuVision VA detects intruders instantly and sends alarms to be reviewed by our monitoring center operators increasing our efficiency and enabling timely actions"

Bill Reilly, Viewpoint Monitoring

Most of their expensive inventory parked outdoors car dealerships are vulnerable to intruders and security threats such as theft and vandalism.

Viewpoint Monitoring protects several dealerships and companies of all sizes across North America with virtual patrols and responding to analytics-driven alarms providing customized, cutting-edge security solutions since 2005.
